

Transportation Outlook 2040

Project List

Transportation Outlook 2040 is the metropolitan transportation plan (MTP) for the greater Kansas City region. A major component of the MTP is identifying a list of regionally important projects to improve the transportation of people and goods (highway, transit, etc.). This federally required project listing is intended to help the region identify and prioritize future transportation investments based on goals, strategies and estimated financial resources. The projects in *Transportation Outlook 2040* were developed, prioritized, and ultimately selected through a comprehensive and coordinated process involving the general public, regional transportation stakeholders and MARC planning committees.

Incorporation by Reference of the MARC Transportation Improvement Program

The Transportation Improvement Program (TIP) is a detailed list of projects to be implemented in the next four to five years, and is developed for the metropolitan transportation planning process in accordance with federal regulations (CFR §450.324). The TIP is incorporated into the MTP by reference, and therefore, upon adoption by the MARC Board, the MTP shall include all projects in the most recently approved TIP as well as any future TIP amendments approved before the next MTP update.

Financial Constraint

Federal planning regulations (CFR §450.322) state that *“For the purpose of developing the metropolitan transportation plan, the MPO, public transportation operator(s), and State shall cooperatively develop estimates of funds that will be available to support metropolitan transportation plan implementation.”* The regulations also indicate *“for illustrative purposes, the financial plan may (but is not required to) include additional projects that would be included in the adopted transportation plan if additional resources beyond those identified in the financial plan were to become available.”*

Transportation Outlook 2040 includes “constrained” and “unconstrained” project lists. The financial plan described in **Appendix E: Financial Capacity** demonstrates the availability of funding for projects in the constrained list. The unconstrained list includes those projects that would be included in the plan if additional resources beyond those identified in Appendix E become available.

To demonstrate financial constraint in the plan, the costs to operate, maintain and preserve the transportation system, in the MARC MPO region, is deducted from available transportation revenues first, and the remaining balance is available for other transportation investments. The constrained project list includes examples of *operations, management and preservation* projects in addition to *non-preservation roadway and transit* projects.

Category	State	Time Period	Sponsor	Project ID	Facility/Program	Location	Description	Capital Cost
Activity Center/Node	KS	2015 to 2020	City of Lenexa	270	Lenexa City Center	87th Street and Renner Boulevard.	Lenexa City Center Neighborhood is a 200-acre neighborhood including all four corners of the 87th Street Parkway and Renner Boulevard intersection along the west side of the I-435 corridor.	\$20,000,000
Activity Center/Node	KS	2015 to 2020	City of Mission	793	Downtown Parking Structure	Along the Johnson Drive Corridor	Construct a public parking structure in support of mixed use development in Mission.	\$7,000,000
Activity Center/Node	KS	2015 to 2020	City of Mission	788	Johnson Drive Corridor Gateways & Downtown Streetscape	Johnson Drive Corridor between Metcalf Avenue on the west to Roe Avenue on the east.	The approach for the streetscape elements in the West Gateway Redevelopment Area and along Johnson Drive (from Lamar to Nall) follows the West Gateway Form Based Code (zoning overlay district) information with guidelines for sidewalk widths as well as recommendations for minimum quantities per block per side for such street furnishings as lights, benches, bike racks, etc.	\$18,130,000
Activity Center/Node	KS	2015 to 2020	City of Overland Park	200	95th and Metcalf Parking Structure	Vicinity of 95th Street and Metcalf Avenue in Overland Park, Kansas.	Construct a parking structure in support of mixed-use infill development, reinvestment, and redevelopment in the area of Metcalf South shopping center.	\$20,000,000
Activity Center/Node	KS	2015 to 2020	City of Overland Park	80	Metcalf Avenue Streetscaping	87th Street to I-435 in Overland Park	Streetscaping and landscaping to create a more favorable pedestrian realm along Metcalf from 87th Street south to I-435 in alignment with the City's Vision Metcalf plan.	\$4,000,000
Activity Center/Node	KS	2015 to 2020	City of Overland Park	199	Downtown Parking Structure	Downtown Overland Park in the vicinity of 80th Street and Metcalf Avenue	Construct a public parking structure in support of mixed use development in downtown Overland Park. This is in support of the City's Vision Metcalf plan to create place making along there Metcalf corridor.	\$7,500,000
Activity Center/Node	KS	2015 to 2020	Leavenworth County	707	Leavenworth County Regional Airport	To be determined.	Construct a new airport in Leavenworth County consistent with recommendations of the 2008 Leavenworth County Airport Feasibility Study and 2009 Leavenworth County Airport Site Selection Study	\$40,000,000
Activity Center/Node	KS	2021 to 2030	City of Lenexa	271	95th & I-35 Redevelopment	95th Street and I-35	The city of Lenexa has been studding the area around 95th Street and I-35 for redevelopment potential. This area has some limited access, but great redevelopment potential. The project will provide the proper transpiration system to serve the anticipated development and redevelopment in this area.	\$12,000,000

Category	State	Time Period	Sponsor	Project ID	Facility/Program	Location	Description	Capital Cost
Activity Center/Node	KS	2021 to 2030	City of Prairie Village	137	W. 75th Street Improvements	Between Walmer and State Line Road	This project will help to connect two activity nodes, one being downtown Overland Park, Kansas and the other being the Waldo area in Kansas City, Missouri.	\$7,200,000
Activity Center/Node	KS	2031 to 2040	City of Prairie Village	138	Mission Road Improvements	between 63rd Street and 95th Street	The project will provide for better bicycle and pedestrian accommodations. Bus turn outs are also part of the project to support the transit operations along Mission Road. Streetscape improvements are also part of the project which will make the corridor much more desirable for pedestrians and bikes.	\$9,800,000
Activity Center/Node	MO	2015 to 2020	City of Kansas City, MO	695	Blue Ridge Blvd Streetscape	87th Street to 1,500 feet south of 87th Street	Streetscape improvements to commercial node at 87th and Blue Ridge Blvd utilizing the "Retail" streetscape guidelines as recommended in the Hickman Mills Area Plan	\$2,128,500
Activity Center/Node	MO	2015 to 2020	City of Kansas City, MO	195	NW 64th St/NW Prairie View Rd Intersection Realignment	NW 64th St & NW Prairie View Rd	Realignment of this segment of roadway allows for increased queuing distance between the existing I-29 on/off-ramps and access road, Prairie View.	\$15,000,000
Activity Center/Node	MO	2015 to 2020	City of Kansas City, MO	761	350 Hwy Streetscape Improvements and Intersection Enhancements	Westridge Road to Unity Village	Create streetscape and pedestrian improvements at mixed use node as recommended in the Knobtown Land Use and Development Plan	\$2,000,000
Activity Center/Node	MO	2015 to 2020	City of Kansas City, MO	715	Blue Ridge Blvd Streetscape	I-470 to 107th Street	Streetscape improvements as recommended in the Hickman Mills Area Plan to include improved bike and pedestrian accommodations	\$2,833,300
Activity Center/Node	MO	2015 to 2020	City of Kansas City, MO	713	Blue Ridge Blvd Streetscape	Blue Ridge Blvd and Bannister Road Intersection	Streetscape improvements to commercial node at Bannister and Blue Ridge Blvd utilizing the "Retail" streetscape guidelines as recommended in the Hickman Mills Area Plan	\$2,128,501
Activity Center/Node	MO	2015 to 2020	City of Kansas City, MO	719	Red Bridge Road Streetscape	From Hickman Mills Drive east 1,500 feet (Old Hickman Mills area)	Hickman Mills Area Plan identifies Blue Ridge Blvd as one of 2 Primary Image Streets for the community and provides detailed streetscape improvement recommendations at key nodes including 87th Street, Bannister Road, I-470 and Red bridge Road.	\$993,000
Activity Center/Node	MO	2015 to 2020	City of Kansas City, MO	780	Ararat Drive road improvements	Sni-a-Bar Road to Eastwood Trafficway	Sidewalks, transit stop enhancements (2 stops), bike lanes, road diet, pedestrian crossings and a roundabout at Sni-a-bar Road intersection.	\$1,500,000

Category	State	Time Period	Sponsor	Project ID	Facility/Program	Location	Description	Capital Cost
Activity Center/Node	MO	2015 to 2020	City of Kansas City, MO	529	Main Street Streetscape Plan	30th to 38th Street	To implement the recommendations of the Main Street Corridor Land Use and Development and subsequent Main Street Streetscape Plan	\$5,750,000
Activity Center/Node	MO	2015 to 2020	City of Kansas City, MO	785	Blue Ridge Blvd Streetscape	Red Bridge Road to 1,600 feet south of Red Bridge Road	Streetscape improvements as recommended in the Hickman Mills Area Plan to include improved bike and pedestrian accommodations	\$1,563,200
Activity Center/Node	MO	2015 to 2020	City of Kansas City, MO	777	Truman Road South Loop Link	Wyandotte Street to Oak Street (both directions)	The South Loop Link Feasibility Study recommends covering I-670 from Wyandotte to Oak with a public park, which will result in tunneling I-670 through the corridor.	\$190,000,000
Activity Center/Node	MO	2015 to 2020	City of Lees Summit	692	2nd Street Improvements	Jefferson Street to Independence Avenue	Implement corridor study recommendations that may include Road Diet, Streetscape, Street Lighting, Traffic Signal Improvements, Safety Improvements, Pedestrian and Bicycle Accommodations along 2nd Street between Jefferson Street and Independence Avenue.	\$2,500,000
Activity Center/Node	MO	2015 to 2020	City of Liberty	783	Kansas Street Gateway and Beautification Project	I-35 to William Jewell College	The gateway and beautification project along the Kansas Street would include tree planting, landscaping, bicycle lanes and sidewalks. It would also include coordinating the timing of the main intersections on Kansas Street, which would reduce emissions from idling cars.	\$250,000
Activity Center/Node	MO	2015 to 2020	City of Liberty	679	Mill Street Redesign	Mill Street/Sunset Ave, between Kansas and H Hwy	Reconstruct Mill Street to provide an attractive, functional and safe environment for all types of transportation	\$2,500,000
Activity Center/Node	MO	2015 to 2020	City of Raymore	444	Raymore Original Town Reinvestment	Highway 58 and South Madison Street in Raymore, MO	New sidewalks, New pedestrian-scale street lighting, New pedestrian crosswalks, New bike parking facilities at public gathering places. Streetscape improvements.	\$1,000,000
Activity Center/Node	MO	2015 to 2020	City of Raytown	602	Downtown Raytown Streetscape	63rd Street (Bridge to Hadley), Raytown Road (Bridge to 62nd Street), Blue Ridge Boulevard (63rd Street to 59th Street)	The downtown streetscape would include new roadway design, intersection improvements, pedestrian elements (wider sidewalks, ADA ramps, benches, trash cans, street lighting), bicycle facilities (bike lanes, bike racks), on-street parking, transit connections (trails, future transit), monument markers and landscaping.	\$4,115,000

Category	State	Time Period	Sponsor	Project ID	Facility/Program	Location	Description	Capital Cost
Activity Center/Node	MO	2021 to 2030	City of Kansas City, MO	750	Cookingham Dr Reconstruction	I-435 to NW Skyview Dr	Reconstruction of existing roadway, bike lanes and pedestrian amenities	\$15,904,000
Activity Center/Node	MO	2021 to 2030	City of Kansas City, MO	572	Grand Boulevard Streetscape	3rd Street to Pershing Boulevard	Implement the recommendations of the Greater Downtown Area Plan and Development and the Downtown Streetscape Plan with the goal of improving the multi-modal environment of the corridor and development of activity centers as described in the Greater Downtown Area Plan.	\$15,000,000
Activity Center/Node	MO	2021 to 2030	City of Kansas City, MO	561	18th Street Connector Plan	Between Summit Street and The Paseo	This project involves a streetscape project that connects the 18th and Vine District, the Crossroads Arts District and the Westside Neighborhood.	\$11,000,000
Activity Center/Node	MO	2021 to 2030	City of Kansas City, MO	540	Troost Avenue Streetscape	23rd to Bannister Avenue	To complete Streetscape along Troost which had been initiated by the Troost Bridge Project at Brush Creek and the Troost MAX.	\$35,000,000
Activity Center/Node	MO	2021 to 2030	City of Kansas City, MO	536	North Oak Corridor Streetscape	N 32nd Street to Englewood Boulevard and one block east and west of North Oak	Winnwood Area Plan, adopted by Resolution 090442 to create a Streetscape Plan that is intended to provide the framework for aesthetically pleasing streetscape elements that promote the corridor plan's policies.	\$24,500,000
Activity Center/Node	MO	2021 to 2030	City of Kansas City, MO	574	Elmwood Mixed Use Node	St. John Avenue from Kensington to Lawn.	This project will involve the design and construction of curbs and sidewalks, pedestrian crossing improvements, replacement of storm inlets, street lighting, street plantings, street furniture, planting beds and associated appurtenances.	\$1,000,000
Activity Center/Node	MO	2021 to 2030	City of Parkville	130	Jones-Myer Road Alignment	Jones-Myer Road, Parkville, MO	Reconfigure Jones-Myer Road and the intersection with N Highway west of I-435.	\$2,981,250
Activity Center/Node	MO	2031 to 2040	City of Kansas City, MO	672	NW 126th Construction	US-169 to First Creek Rd	Construction of new 4 lane primary arterial street.	\$8,000,000
Bicycle/Pedestrian	BISTATE	2015 to 2020	MARC	3011	Regional Bikeways Plan Implementation - Phase 1	Regional	The plan expands the MetroGreen concept of bike and pedestrian facilities in rights-of-way using a Complete Streets approach and provides a set of recommended design guides	\$154,454,569

Category	State	Time Period	Sponsor	Project ID	Facility/Program	Location	Description	Capital Cost

Management & Operations	MO	2031 to 2040	City of Kansas City, MO	712	Traffic Management System 2030	Citywide (KCMO)	IMPROVE CAPACITY OF EXISTING SIGNAL SYSTEM AND RECONSTRUCT EXISTING FACILITIES	\$25,000,000

Category	State	Time Period	Sponsor	Project ID	Facility/Program	Location	Description	Capital Cost
Roadway	KS	2015 to 2020	Johnson County	103	Sunflower Western Corridor Study	Corridor Study – K-10 to 159th Street	This study will identify the location of a Type III Parkway generally in the area of the Sunflower Army Ammunition Plant that will connect K-10 and 159th Street in Johnson County, Kansas.	\$1,000,000
Roadway	KS	2021 to 2030	KDOT	716	K-10 Widening	I-435 to Douglas County	Widen K-10 to 6 lanes from Johnson/Douglas County Line East to I-435as prescribed in the K-10 Transportation Study. Added lanes could incorporate High-Occupancy Toll techniques, if deemed feasible.	\$453,000,000
Roadway	KS	2021 to 2030	KDOT	661	I-35 Reconstruction	Old US-56 to 119th Street	Reconstruct and add lanes along approximately 3.6 miles of I-35	\$83,000,000
Roadway	KS	2021 to 2030	KDOT	3017	US-69 Improvements (Phase 2)	103rd St to 119th St	Construct northbound collector-distributor (C-D) roads from 119th St. to 103rd St. along US-69, complete the interchanges at US-69 & College Blvd. and US-69 & I-435.	\$90,000,000
Roadway	KS	2031 to 2040	KDOT	3019	US-69 Improvements (Phase 4)	151st Street to 179th Street	Reconstruct US-69 and add through lanes from 179th St. to 151st St.	\$65,000,000
Roadway	KS	2031 to 2040	KDOT	703	K-7/K-10 interchange	K-7/K-10	New interchange to replace existing system to system interchange	\$150,000,000
Roadway	KS	2031 to 2040	KDOT	3018	US-69 Improvements (Phase 3)	Blue Valley Pkwy to 151st Street	Reconstruct US-69 and add through lanes from 151st St. to 135th St., Reconstruct the interchange at US-69 and 151st St., and construct southbound C-D road between 135th St. and Blue Valley Pkwy.	\$65,000,000
Roadway	MO	2015 to 2020	Cass County	711	US71 & RockHaven Road Interchange	US71 & RockHaven Road Cass County	Construct a complete interchange at the overpass of US71 & Rock Haven Road in Cass County	\$7,165,173
Roadway	MO	2015 to 2020	City of Belton	636	Markey Parkway Plan	Prospect @ M-58 North and east to Westover, to North Scott, Y Highway and Southeast to Mullen Road and M-58	Future Markey Parkway will serve as a major east-west route in northern Belton to relieve the congestion on M-58 Highway which is currently the City's only east-west corridor.	\$35,000,000
Roadway	MO	2015 to 2020	City of Blue Springs	417	Woods Chapel Rd Reconstruction	40 Hwy to Pink Hill Rd	Reconstruction of a Minor Arterial roadway to include sidewalk and bike facilities.	\$15,000,000

Category	State	Time Period	Sponsor	Project ID	Facility/Program	Location	Description	Capital Cost
Roadway	MO	2015 to 2020	City of Gladstone	2009	Old Pike Road Reconstruction	Vivion Road to NW Englewood Road	The project includes reconstruction of the existing roadway and the installation of new curb and gutter, sidewalks, storm water drainage, new asphalt pavement, and share the road bicycle lanes.	\$2,000,000
Roadway	MO	2015 to 2020	City of Gladstone	314	NE 76th Street Improvement	N. Troost Avenue to N. Olive	The project will consist of the reconstruction of the existing roadway, new sidewalks, and an on-road bike lanes.	\$4,000,000
Roadway	MO	2015 to 2020	City of Gladstone	131	68th St. Parkway concept	70th and N. Oak Trafficway and heads southwest terminating at 68th and Broadway St. in Gladstone.	During the planning stages of the Downtown Village Center Master Plan, the 68th St. Parkway concept was identified as a "gateway" opportunity for new development options. After the planning stages and adoption of the downtown plan, engineering and economic investigation of the parkway began.	\$10,000,000
Roadway	MO	2015 to 2020	City of Gladstone	2008	MO Route 1 and NE 72nd Street Intersection Improvements	Intersection of MO Route 1 and NE 72nd Street	The project will include operational and capacity improvements including additional lanes on NE 72nd Street at MO Route 1	\$800,000
Roadway	MO	2015 to 2020	City of Gladstone	2007	Village Center Street Improvements	N. Locust from NE 69th Street to NE 72nd Street	The project will include the reconstruction of N. Locust from NE 69th Street to NE 72nd Street including new curb and gutter, sidewalks, storm water, and additional parking.	\$900,000
Roadway	MO	2015 to 2020	City of Gladstone	129	Pleasant Valley Road Improvements	NE 64th St. and N. Indiana Avenue in Gladstone to Interstate 435 in Kansas City	The purpose of the improvements will be to expand the current roadway to a three-lane section with curb and gutter and to improve roadway safety throughout the corridor.	\$6,000,000
Roadway	MO	2015 to 2020	City of Gladstone	317	Old Antioch Road Improvement	Shoal Creek to N. Indiana	Project will consist of the installation of curb, gutter, sidewalk, and bike trail.	\$5,500,000
Roadway	MO	2015 to 2020	City of Grain Valley	782	Sni-A-Bar Interchange	Between Adams Dairy Parkway and Grain Valley (Route BB)	Construct a new interchange at I-70 and Sni-A-Bar Road. The most effective design for such improvements is a collector-distributor with the existing Grain Valley Interchange and the SABI due to its proximity to others.	\$71,000,000
Roadway	MO	2015 to 2020	City of Grandview	528	KC Southern Overpass	KC Southern RR crossing at Blue Ridge Blvd	The existing KC Southern overpass of Blue Ridge Blvd has a clear horizontal opening of less than 30 ft, not enough for two lanes of traffic & a sidewalk. A new overpass would allow 4 lanes plus sidewalk on each side of street	\$5,000,000

Category	State	Time Period	Sponsor	Project ID	Facility/Program	Location	Description	Capital Cost
Roadway	MO	2015 to 2020	City of Grandview	784	US 71 Interchange Access Improvement Project	Between Blue Ridge Blvd and Harry Truman Drive	The recommended strategy (and this project) calls for a new full-access interchange midway between Blue Ridge Boulevard and Harry Truman Drive to directly connect the Truman Corners Shopping District (west side of US 71) and the International House of Prayer (IHOP) campus (on the east side of US 71). This interchange will include companion U-turn bridges to create U-turn pairs (thus reducing vehicles miles traveled). This new interchange will be connected to the existing outer road system via 2 new roundabouts (eliminating traffic signals, vehicle delay and vehicle emissions). Portions of the existing outer roads will be relocated to accommodate the new interchange construction and will also result in the construction of new surface streets to serve the Truman Corners and IHOP developments.	\$30,000,000
Roadway	MO	2015 to 2020	City of Greenwood	721	Ranson Road Rebuild	Highway 150 (West Main Street) North to the City Limit (Browning Road)	This project will improve the existing roadway from a rural road with ditches to a collector with a storm drainage system and curb & gutter.	\$1,200,000
Roadway	MO	2015 to 2020	City of Harrisonville	463	Mechanic Street (Missouri Route 7) Roadway Improvements	Stella to Independence in Harrisonville, Missouri	Upgrade consists of the widening to three lanes thus allowing a full turning lane for both residential and commercial access. Deteriorated curbs, gutters, and sidewalks will be replaced with ADA compliant facilities.	\$3,227,000
Roadway	MO	2015 to 2020	City of Independence	342	35th Street Improvements	West City limits east to Kiger Road.	The 35th Street, West City limits to Kiger Road, Project will improve the existing 35th Street from two lanes to three lanes. New curb and gutters will be installed and the storm sewers will be updated. Five foot sidewalks will be placed on both sides of the road with new street lighting.	\$16,000,000
Roadway	MO	2015 to 2020	City of Independence	340	Kentucky Road Improvements	River Boulevard East to U.S. 24 Highway.	The Kentucky Road, River Blvd. to U.S. 24 Highway, Project will improve the existing Kentucky Road two lanes to a four lane minor arterial street. New curb and gutters will be installed and the storm sewers will be updated. Five foot sidewalks will be placed on both sides of the road with new street lighting. .	\$19,000,000

Category	State	Time Period	Sponsor	Project ID	Facility/Program	Location	Description	Capital Cost
Roadway	MO	2015 to 2020	City of Independence	369	Holke Road Improvements	M-78 Highway east to its intersection with Jackson Drive	Improve Holke Road from a two lane road to a three lane road with a center turn lane. The existing roadway will be widened on the current alignment, new curb and gutters will be installed, and the storm sewers will be updated. Five foot sidewalks will be placed on both sides of the road with new street lighting. This project will also include a new intersection with Jackson Drive which will help alleviate residential traffic on M-78 Highway.	\$6,000,000
Roadway	MO	2015 to 2020	City of Independence	359	Jackson Drive Improvements	M-78 Highway, curving Northeast then Northwest and connecting with Bundschu Road at existing Jackson Drive.	The Jackson Drive, M-78 Highway to Bundschu Road, project will create a new undivided four lane minor arterial street in Eastern Independence. The construction of curbs, storm sewers, five foot sidewalk, and an eight foot shared bicycle/pedestrian path will be included in this project.	\$15,000,000
Roadway	MO	2015 to 2020	City of Independence	366	R.D. Mize Road Improvements	Eureka Road southeast to Wood's Chapel Road just North of Interstate 70.	R.D. Mize Road from Eureka Road to Pink Hill Road will be improved from a two lane road to a three lane road with a center turn lane. R.D. Mize Road from Pink Hill Road south to its intersection with Wood's Chapel Road will be improved from a two lane road to a four lane road. The entire roadway will be widened on the existing alignment, new curb and gutters will be installed, and the storm sewers will be updated. An eight foot shared bicycle/pedestrian path will be placed on one side of the road with a five foot sidewalk on the other. This project will also include new street lighting.	\$11,500,000
Roadway	MO	2015 to 2020	City of Independence	367	Salisbury Road Improvements	existing Athletic Complex entrance east to Jones Road	Improve the last section of Salisbury Road to be widened from two lanes to three lanes. The roadway will be widened on the existing alignment with striping for a center turn lane. New curb and gutters will be installed and the storm sewers will be updated. Five foot sidewalks will be placed on both sides of the road with new street lighting.	\$5,200,000
